OUR COMMITMENT

At RGS Fire Protection Ltd we pride ourselves on delivering complaint passive fire protection solutions with professionalism, transparency and attention to detail.

From initial surveys through to installation and certification, our goal is to provide clients with complete confidence that their fire protection requirements have been delivered to the highest standards.

01

CONSULT & SURVEY

We review your requirements and undertake detailed site surveys to establish the scope, identify defects and determine suitable compliant solutions.

02

PLAN & PROGRAMME

We provide clear proposals, specifications, RAMS and realistic programmes tailored to the site, access requirements and wider project schedule.

03

DELIVER

Our experienced teams install tested fire-protection systems safely and efficiently, following approved details and manufacturers' requirements.

04

INSPECT & CERTIFY

Completed works are inspected, photographed and digitally recorded, with full traceability and installation certification provided at handover.

HEALTHCARE

Fire-stopping, compartmentation and fire-door works within live and sensitive healthcare environments.

EDUCATION

Fire-stopping, compartmentation and fire-door works across schools, colleges and university buildings.

RESIDENTIAL

Fire-stopping remediation, compartmentation and fire-door works across occupied apartment blocks and high-rise residential buildings.

COMMERCIAL

Passive fire-protection installations for office refurbishments, retail units and occupied commercial premises

NEW BUILD

Coordinated passive fire-protection installations across new-build developments, from initial installation through to inspection and handover.
